## Legislative Report

# Community Pollution Prevention Fund Annual Report

Report Period: Fiscal Year 2021

This report is provided in accordance with Section 445.573f(5) of Initiated Law 1 of 1976, as amended (Bottle Bill). This is the Department of Environment, Great Lakes, and Energy's (EGLE) annual report that summarizes pollution prevention grants provided, contractual commitments made and achieved, and an evaluation of the effectiveness of this fund for fiscal year (FY) 2021.

A total of \$250,000 was allocated for FY 2021. The objective of the FY 2021 Community Pollution Prevention Grant was to reduce the following: the number of sanitary sewer overflows; the volume of sewage discharged into the environment; on-grid energy consumption; and phosphorus concentrations in wastewater pond effluent. The Request for Proposals (RFP) was released on February 4, 2021. EGLE received 11 applications requesting a total of \$227,271.29 in funding. The proposals were reviewed and selected based on eligibility criteria described in the RFP, on a first come, first served basis. Nine projects across the state were approved for funding, totaling \$186,167.54 in grant funding; the projects required 25 percent in local match funding, which was in addition to the funds represented in Table 1, below. All reimbursements will be submitted by September 30, 2022. Table 1 contains summaries of the executed grant agreement projects.

Table 1: FY 2021 Executed Grant Agreement Projects

Applicant	County	Grant Amount	Project Description
De Tour Village	Chippewa	\$20,857.50	Backup generator for a critical pump station
Grattan Township	Kent	\$25,000.00	Backup generator for a critical pump station
Marquette Township	Marquette	\$25,000.00	Backup generator for a critical pump station
North Houghton County Water & Sewage Authority	Houghton	\$18,534.04	Supervisory control and data acquisition system
Port Austin	Huron	\$23,627.00	Supervisory control and data acquisition system on 2 pumps that currently have no monitoring source outside of a basic float system
Village of Beulah	Benzie	\$25,000.00	Backup generator for a critical pump station
Village of Bloomingdale	Van Buren	\$4,950.00	Replace programmable logic controller
Village of Deerfield	Lenawee	\$18,199.00	Supervisory control and data acquisition system
Village of Marion DPW	Osceola	\$25,000.00	Backup generator for a critical pump station and supervisory control and data acquisition system
